Compensation Discussion and Analysis

Elements of Executive Compensation

Our compensation policies have been influenced by the need to attract and retain executives with the scientific and management expertise to conduct our research and product development program in a highly competitive industry dominated by larger, more highly capitalized companies. The compensation we provide our executive officers currently has the following primary components:

- Base salary;
- Annual cash bonuses based on corporate and individual performance;
- Long-term incentives in the form of stock options;
- Health insurance; and
- 401(k) plan participation with employer contributions.

In determining compensation for our executive officers, the Compensation Committee considers a variety of factors. For 2013 compensation, the most important factors were:

- BioTime's and its subsidiaries' growth and progress in scientific research;
- Extraordinary performance by an individual during the year;
- Retention concerns;
- The executive's tenure and experience;
- The executive's historical compensation;
- Market data;
- Our financial position and capital resources; and
- Fairness.

In reviewing each executive's overall compensation, the Compensation Committee considers an aggregate view of base salary and bonus opportunities, previous stock option grants, and the dollar value of benefits and perquisites. Executive compensation is also influenced by the cost of living in the San Francisco Bay Area. These factors have been balanced against our financial position and capital resources. In evaluating the compensation of executive officers, the Compensation Committee considers input from the Chief Executive Officer who is most familiar with their performance.

BioTime is a growing company and our compensation policies are still evolving. In the course of BioTime's growth and integration of newly acquired companies, we may implement new compensation plans and policies and modify existing ones. Accordingly, executive compensation paid during 2013 may or may not be reflective of the compensation that will be paid during subsequent years, except to the extent that the executives receive compensation under employment agreements that continue in effect during those years. In this regard, the Compensation Committee may consider the implementation of performance based bonus programs under which awards would be based upon the attainment of pre-set quantified benchmarks or goals. As permitted by the Compensation Committee Charter, the Compensation Committee engaged the services of an independent executive compensation consulting firm to provide information about comparative compensation offered by peer companies, market survey information, and information about trends in executive compensation.

Base Salaries

The minimum base salaries of Michael D. West, our Chief Executive Officer, Robert W. Peabody, our Senior Vice President, Chief Operating Officer, and Chief Financial Officer, and William P. Tew, our Chief Commercial Officer, during 2013 were defined by their respective employment agreements which were approved by the Board of Directors, without the vote of Dr. West in the case of his employment agreement. The base salaries for our executive officers were established based on the scope of their responsibilities and are intended to be competitive with the compensation paid to executives with comparable qualifications, experience, and responsibilities in similar businesses of comparable size. A significant portion of BioTime's business is conducted by its subsidiaries. The management and oversight of those subsidiaries, some of which are located overseas, is taken into account in determining base salaries. Base salaries are reviewed annually and adjusted from time to time to realign salaries with market levels and to reflect the growth of the company and the increasing responsibilities of the executives.

For 2014, the Compensation Committee supported the recommendation of management to establish an annual raise guideline of 3% as recommended by the compensation consultant retained by the Compensation Committee. This will be a pool of money based upon 3% of the current annual wages, to be distributed among BioTime employees based upon their annual performance assessments. The actual percentage raise to each executive or other employee will differ based upon their individual performance with the total increase awarded to all employees being no more than 3% pool amount.

During February 2013, the Compensation Committee reviewed the base salaries of Dr. West, Mr. Peabody, and Dr. Tew which had been set at \$680,315, \$405,107, and \$285,000 during 2013. Based on a comparison of their 2013 salaries to salaries paid by competing companies, including companies located in the San Francisco Bay area, and increased support of BioTime's subsidiaries, the Compensation Committee determined that, during 2014 Dr. West's base salary would remain at \$680,315 considering the relationship of his salary to chief executive officers in the company's peer group and considering BioTime's overall performance during 2014. Mr. Peabody's base salary for 2014 was set at \$430,135, reflecting a 3% raise under the 3% raise pool. Dr. Tew's base salary for 2014 was set at \$300,000, reflecting a 3% raise under the 3% raise pool plus a 2.26% merit raise.

Bonuses may be earned by each executive officer based upon the achievement of personal goals established in the executive's employment agreement, or based upon the personal performance of an executive in helping the company or a subsidiary attain its strategic objectives, as determined by the Compensation Committee. Because we are still conducting research and development, and have not attained profitability, the Compensation Committee has not set performance milestones based upon profit levels and return on equity as the basis for incentive compensation. Instead, the incentive awards have been tied to the achievement of company strategic goals and personal performance. Personal performance is related to the functional responsibility of each executive officer. Important milestones that have been considered by the Compensation Committee or the Board of Directors in determining incentive bonuses or bonus provisions in employment agreements have included (i) procuring additional capital and research grants, (ii) licensing products and technology, (iii) completing specified research and development goals, (iv) achieving organizational goals such as the acquisition of other businesses and the integration of those businesses into our organization, and (v) overall performance of the company.

The Compensation Committee recommended that BioTime's compensation philosophy should put company total cash compensation in the 50th percentile of the comparator peer group companies reflected in data considered by the Committee. To achieve this goal, the Compensation Committee recommended that bonuses be increased over a period of three years and that bonuses be awarded in lieu of merit increases to base salaries during that period. External data indicates that although base salaries are aligned with the comparator peer group, bonuses, when paid, have been significantly below the comparator peer group. By allocating the bonuses over a period of three years, the financial impact of the adjustment will be aligned with the stage of development of the company and its financial situation.

The Committee considered executive accomplishments and performance during 2013 for bonus awards, along with financial factors, including our cash position and commitments. The Committee recommended that discretionary bonuses for 2013 be awarded to Mr. Peabody and Dr. Tew in the amounts of \$100,000, and \$30,000, respectively, which were paid in March 2014. In addition, contracted bonuses were awarded to Dr. West and Mr. Peabody in the amounts of \$65,000 and \$45,000, respectively, the details of which are described below.

Funding for research is critical to our business. Under his employment agreement, Dr. West is entitled to receive an annual bonus equal to the lesser of (A) \$65,000 or (B) the sum of 65% of Consulting Fees and 6.5% of Grant Funds we receive during each fiscal year; provided that (x) we obtained the grant that is the source of the Grant Funds during the term of his employment, (y) the grant that is the source of the Grant Funds is not a renewal, extension, modification, or novation of a grant (or a new grant to fund the continuation of a study funded by a prior grant from the same source) obtained by us prior to his employment, and (z) the grant that is the source of the Grant Funds was not obtained by us substantially through the efforts of any consultant or independent contractor compensated by us for obtaining the grant. Grant Funds means money actually paid to us during a fiscal year as a research grant by any federal or state government agency or any not for profit non-government organization, and expressly excludes (1) license fees, (2) royalties, (3) Consulting Fees, (4) capital contributions to us or any of our subsidiaries, or any joint venture of any kind (regardless of the legal entity through which the joint venture is conducted) to which we are a party, and (5) any other payments received by us from a business or commercial enterprise for research and development of products or technology pursuant to a contract or agreement for the commercial development of a product or technology. Consulting Fees means money we receive under a contract that entitles us to receive a cash fee for providing scientific and technical advice to third parties concerning stem cells. During 2013, Dr. West received a bonus of \$65,000 based on BioTime's receipt of Grant Funds.

Under his employment agreement, Mr. Peabody is entitled to receive an annual bonus equal to the lesser of (A) \$45,000 or (B) the sum of 35% of Consulting Fees and 3.5% of Grant Funds determined on the same basis used to determine the annual bonus under Dr. West's employment agreement. During 2013, Mr. Peabody received a bonus of \$45,000 based on BioTime's receipt of Grant Funds.

Stock Option Awards

Stock options are an important part of the compensation packages for BioTime's employees, directors, and consultants. We strongly believe that attracting and retaining the services of employees, directors, and consultants depends in great measure upon the ability of BioTime and its subsidiaries to provide the kind of incentives that are derived from the ownership of stock and stock options, which are offered by competing pharmaceutical development and bio-technology companies. This is especially true for us and our subsidiaries since the base compensation that we and our subsidiaries offer is often lower than the compensation packages offered by competing companies. For these reasons, six of our subsidiaries have adopted stock option plans with the approval of our Board of Directors, including the independent directors. One of our other subsidiaries, Cell Cure Neurosciences Ltd., had already adopted its own stock option plan before we acquired our interest in that subsidiary.

Our stock options programs are intended to align the long-term interests of executives with the interests of shareholders by offering potential gains if our stock price increases, and to provide incentives for employees to work towards the long-term success of BioTime and its subsidiaries by using vesting schedules over several years. We use a combination of BioTime stock options and subsidiary stock options. Because of the direct relationship between the value of a BioTime stock option and the increased market price of our common shares after the grant date, we feel that stock options will continue to be important to motivate our executive officers and employees to manage BioTime in a manner that is consistent with both the long-term interests of our shareholders and our business objectives.

We believe that having subsidiaries that focus on particular disease therapies or research products will facilitate the optimization of scientific and commercial collaborations, thereby improving the probability that a subsidiary company will eventually become an industry leader. We also believe that high-quality executives are likely to be more attracted to managing subsidiary companies than to heading divisions within a larger company. The organization of our regenerative medicine business into subsidiaries has also facilitated our ability to obtain financing for our regenerative medicine programs. We believe that granting stock options in a subsidiary company provides incentives for executives and other employees to work towards the long-term success of that subsidiary so that it can grow to become a self-sufficient, "stand alone" company, at which time holders of stock in the subsidiary may realize value for their subsidiary shares.

The stock option plans of BioTime and its subsidiaries also permit the sale of restricted stock in lieu of granting stock options. Although we have not sold restricted stock to executives, we may do so in the future. The ownership of restricted stock requires the executive to make a current financial commitment to the company, which we believe may strengthen the executive's ties to the company, especially in the case of a subsidiary where no public market exists for its common stock. The sale of restricted stock may also offer long-term tax advantages to the executives. Our new Equity Incentive Plan also permits us to award (a) stock appreciation rights through which executives may receive cash awards based upon the excess of the market price of our common shares over the strike price of the stock appreciation rights granted, and (b) restricted stock units through which an executive may receive common shares or cash payments upon the vesting of the units and satisfaction of any conditions of the award. The Committee recommended that BioTime executives should not receive stock options during 2014 under any of the subsidiary stock option plans.

During February 2013, the Committee recommended to the Board of Directors that annual grants of stock options be made to executive officers and other employees based upon their professional level in the organization and their annual performance using the following matrix as a guideline:

<u>Position</u>	<u>Number of Option Shares</u>
Chief Executive Officer	200,000
Senior Executive/Officer	100,000
Vice President/Senior Director	50,000
Director/Manager	25,000
Senior Professional	10,000
Technical/Administrative	5,000

Consistent with that recommendation, the Committee recommended, and the Board of Directors has approved, the stock option grants to executive officers under the BioTime Equity Incentive Plan shown in the following table.

<u>Name</u>	<u>Position</u>	<u>Number of Option Shares</u>
Michael D. West	Chief Executive Officer	200,000
Robert W. Peabody	Sr. V.P. Chief Operating Officer	100,000
Leslie A. Stolz	Executive Vice President, Corporate Development	50,000
William P. Tew	Chief Commercial Officer	100,000

Severance and Change of Control Payments

The employment agreements of our executive officers contain provisions entitling them to severance benefits in the event that their employment is terminated by us or following a "Change of Control" of BioTime.

If we terminate Dr. West's or Mr. Peabody's employment without "cause" as defined in their respective employment agreements the terminated executive will be entitled to severance benefits, consisting of payment of six months base salary, and 50% of his then unvested BioTime stock options will vest. However, if a termination of the executive's employment without "cause" occurs within twelve months following a "Change of Control," he will be entitled to twelve months base salary, and 100% of his then unvested BioTime options will vest.

If we terminate Dr. Tew's employment without "cause" as defined in his employment agreement, he will be entitled to severance benefits consisting of payment of six months base salary which may be paid in a lump sum or, at the election of BioTime, in installments consistent with the payment of his salary while employed by BioTime.

In order to receive the severance benefits, the executive must execute a general release of all claims against BioTime and must return all BioTime property in the executive's possession.

"Change of Control" means (A) the acquisition of our voting securities by a person or an Affiliated Group entitling the holder to elect a majority of our directors; provided, that an increase in the amount of voting securities held by a person or Affiliated Group who on the date of the Employment Agreement beneficially owned (as defined in Section 13(d) of the Securities Exchange Act of 1934, as amended, and the regulations thereunder) more than 10% of our voting securities shall not constitute a Change of Control; and provided, further, that an acquisition of voting securities by one or more persons acting as an underwriter in connection with a sale or distribution of voting securities shall not constitute a Change of Control, (B) the sale of all or substantially all of our assets; or (C) a merger or consolidation in which we merge or consolidate into another corporation or entity in which our shareholders immediately before the merger or consolidation do not own, in the aggregate, voting securities of the surviving corporation or entity (or the ultimate parent of the surviving corporation or entity) entitling them, in the aggregate (and without regard to whether they constitute an Affiliated Group) to elect a majority of the directors or persons holding similar powers of the surviving corporation or entity (or the ultimate parent of the surviving corporation or entity). A Change of Control shall not be deemed to have occurred if all of the persons acquiring our voting securities or assets, or merging or consolidating with us, are one or more of our direct or indirect subsidiaries or parent corporations. "Affiliated Group" means (A) a person and one or more other persons in control of, controlled by, or under common control with, such person; and (B) two or more persons who, by written agreement among them, act in concert to acquire voting securities entitling them to elect a majority of our directors. "Person" includes both people and entities.

The following tables show certain information relating to the compensation of our Chief Executive Officer and our Senior Vice-President, Chief Operating Officer, and Chief Financial Officer, our Chief Commercial Officer, and our former Chief Financial Officer and former Executive Vice President, Corporate Development who were our only other executive officers whose compensation exceeded \$100,000 during 2013, who are collectively referred to as the "Named Executive Officers."

Potential Payments Upon Termination or Change in Control

As discussed above, under the terms of their employment agreements, certain Named Executive Officers may receive severance payments upon termination of their employment without “cause” or following a “Change of Control” of BioTime. The table below summarizes the potential severance payments under the individual employment agreements for those executive officers if a termination without “cause” or a Change of Control event occurred on December 31, 2013.

Officer and Position	Benefit	Before Change in Control Termination w/o Cause (1)	After Change of Control Termination w/o Cause
Michael D. West, Chief Executive Officer	Cash Payment ⁽¹⁾ Option Vesting ⁽²⁾	\$ 340,158 -	\$ 680,315 -
Robert W. Peabody, Senior Vice President Chief Operating Officer, and Chief Financial Officer	Cash Payment ⁽¹⁾ Option Vesting ⁽²⁾	\$ 208,804 -	\$ 417,607 -
Leslie A. Stolz Executive Vice President, Corporate Development	Cash Payment ⁽¹⁾ Option Vesting ⁽²⁾	\$ 68,750 -	\$ 137,500 -
William P. Tew, Chief Commercial Officer	Cash Payment ⁽¹⁾ Option Vesting ⁽²⁾	\$ 142,500 -	\$ 285,000 -

(1) Amounts represent lump sum severance payments that could be paid to the executive officer under such executive’s employment agreement as of December 31, 2013.

(2) Amounts represent an estimate of the intrinsic value of options that would become fully vested and exercisable based on a market value of \$3.60 per common share as of December 31, 2013. The estimated values for Dr. West and Mr. Peabody are zero as their options were fully vested. The estimated values for Dr. Stolz and Dr. Tew are zero as the exercise prices of their options are greater than the closing stock price on December 31, 2013.

Other Compensation Plans

We do not have any pension plans, defined benefit plans, or non-qualified deferred compensation plans. We do make contributions to 401(k) plans for participating executive officers and other employees.

Consideration of Shareholder Advisory Vote on Executive Compensation.

The results of our advisory vote on executive compensation at our 2013 Annual Meeting of Shareholders showed that 99% of the shares that voted approved the compensation we provided to our “Named Executive Officers” during 2012. Our Compensation Committee is pleased that our shareholders have express satisfaction with the Committee’s compensation decisions. The compensation policies applied by the Compensation Committee in determining the compensation of our executive officers during 2013 were measure consistent with those approved by our shareholders’ advisory vote last year. Two new policies were implemented by the Compensation Committee for 2014. The Compensation Committee supported the recommendation of management to establish an annual raise guideline of 3% as recommended by the compensation consultant retained by the Compensation Committee. This will be a pool of money based upon 3% of the current annual wages, to be distributed among BioTime employees based upon their annual performance assessments. The actual percentage raise to each executive or other employee will differ based upon their individual performance with the total increase awarded to all employees being no more than 3% pool amount. Also, the Compensation Committee recommended that BioTime’s compensation philosophy should put company total cash compensation in the 50th percentile of the comparator peer group companies reflected in data considered by the Committee. To achieve this goal, the Compensation Committee recommended that bonuses be increased over a period of three years and that bonuses be awarded in lieu of merit increases to base salaries during that period. External data indicates that although base salaries are aligned with the comparator peer group, bonuses, when paid, have been significantly below the comparator peer group. By allocating the bonuses over a period of three years, the financial impact of the adjustment will be aligned with the stage of development of the company and its financial situation.

The Compensation Committee considers, in establishing and reviewing the executive compensation program, whether the program encourages unnecessary or excessive risk taking. Our executive compensation arrangements include a fixed salary that provides a steady income so that executives do not feel pressured to focus exclusively on stock price performance or short term financial targets to the detriment of our long-term operational and strategic objectives. We supplement fixed salaries with discretionary bonus awards based on the executive's performance as well as the performance of BioTime and its subsidiaries, and bonus awards based on BioTime's receipt of research grant funding. The stock options that we have granted to our executive officers under the Equity Incentive Plan vest over four years, assuring that the executives take a long-term perspective in viewing their equity ownership.

Because BioTime has not adopted compensation plans, or made incentive awards, based on quantified financial performance measures, we have not adopted specific policies regarding the adjustment or recovery of awards or payments if the relevant performance measures are restated or otherwise adjusted in a manner that would reduce the size of an award or payment. We may adopt such policies, however, if we adopt incentive compensation plans or grant incentive bonuses based on financial performance measures.

Tax Considerations

Section 162(m) of the Internal Revenue Code places a \$1 million limit on the amount of compensation that a company can deduct in any one year for compensation paid to its chief executive officer and the three most highly-compensated executive officers employed by the company at the end of the year, other than the company's chief financial officer. The \$1 million deduction limit does not apply to compensation that is performance-based and provided under a shareholder-approved plan. The Compensation Committee has never awarded cash compensation, in the form of salary and bonuses, in excess of the \$1 million limit. BioTime's stock option awards are designed to qualify for tax deductibility. Notwithstanding the foregoing, we may elect to pay compensation to executive officers that may not be fully deductible if we believe that is necessary to attract, retain and reward high-performing executives.

Item 13. Certain Relationships and Related Transactions and Director Independence

Certain Transactions

Since July 1 2009, Alfred D. Kingsley has made available to us the use of approximately 900 square feet of office space in New York City. We pay the office building owner \$5,050 per month for the use of the space.

Related Person Transaction Policy

During April 2011, we adopted a Related Person Transaction Policy that applies to transactions exceeding \$120,000 in which any of our officers, directors, beneficial owners of more than 5% of our common shares, or any member of their immediate family, has a direct or indirect material interest, determined in accordance with the policy (a "Related Party Transaction"). A Related Party Transaction must be reported to our outside legal counsel, our Chief Operating Officer, and our Chief Financial Officer, and will be subject to review and approval by our Audit Committee prior to effectiveness or consummation, to the extent practical. In addition, any Related Party Transaction that is ongoing in nature will be reviewed by the Audit Committee annually to ensure that the transaction has been conducted in accordance with any previous approval and that all required disclosures regarding the transaction are made.

As appropriate for the circumstances, the Audit Committee will review and consider:

- the interest of the officer, director, beneficial owner of more than 5% of our common shares, or any member of their immediate family (“Related Person”) in the Related Person Transaction;
- the approximate dollar value of the amount involved in the Related Person Transaction;
- the approximate dollar value of the amount of the Related Person’s interest in the transaction without regard to the amount of any profit or loss;
- whether the transaction was undertaken in the ordinary course of our business;
- whether the transaction with the Related Person is proposed to be, or was, entered into on terms no less favorable to us than terms that could have been reached with an unrelated third party;
- the purpose of, and the potential benefits to the transaction to us; and
- any other information regarding the Related Person Transaction or the Related Person in the context of the proposed transaction that would be material to investors in light of the circumstances of the particular transaction.

The Audit Committee will review all relevant information available to it about a Related Person Transaction. The Audit Committee may approve or ratify the Related Person Transaction only if the Audit Committee determines that, under all of the circumstances, the transaction is in, or is not in conflict with, our best interests. The Audit Committee may, in its sole discretion, impose such conditions as it deems appropriate on us or the Related Person in connection with approval of the Related Person Transaction.

A copy of our Related Person Transaction Policy can be found on our website at www.biotimeinc.com.

Nordhoff, and Andrew von Eschenbach, who served on the Board of Directors and on our Audit Committee during 2013, also qualified as “independent” in accordance with Section 803(A) of the NYSE MKT Company Guide and the independence standards under Section 803(B)(2) of the NYSE MKT Company Guide and Section 10A-3 under the Securities Exchange Act of 1934, as amended. Messrs. Berger, Burns, and Nordhoff also met the independence standards of Section 8.05(c) of the NYSE MKT Company Guide as members of the Compensation Committee.

The only compensation or remuneration that BioTime has provided to Ms. Andrews, Mr. Bradsher, Mr. Farrell, Mr. Lichtinger, and Mr. Schlachet, and provided to Mr. Berger, Mr. Burns, Mr. Nordhoff, and Dr. von Eschenbach during their tenure as directors, has been compensation as non-employee directors. None of these directors, nor any of the members of their families, have participated in any transaction with us that would disqualify them as “independent” directors under the standard described above.

Michael D. West and Judith Segall do not qualify as “independent” because they are our full-time employees. Alfred D. Kingsley does not qualify as “independent” because he receives compensation for serving in an executive role as Chairman of certain of our subsidiaries.

Compliance with Section 16(a) of the Securities Exchange Act of 1934

Section 16(a) of the Exchange Act requires our directors and executive officers and persons who own more than ten percent (10%) of a registered class of our equity securities to file with the SEC initial reports of ownership and reports of changes in ownership of common shares and other BioTime equity securities. Officers, directors and greater than ten percent beneficial owners are required by SEC regulations to furnish us with copies of all reports they file under Section 16(a).

To our knowledge, based solely on our review of the copies of such reports furnished to us, all Section 16(a) filing requirements applicable to our officers, directors, and greater than ten percent beneficial owners were complied with during the fiscal year ended December 31, 2013.

Item 14. Principal Accounting Fees and Services

Rothstein Kass has served as our independent registered public accountants since February 2007 and audited our annual financial statements for the fiscal years ended December 31, 2013 and December 31, 2012.

Audit and Quarterly Review Fees. Rothstein Kass billed us \$229,500 in 2013 and \$323,500 in 2012, respectively, for the audit of our annual financial statements and for the review of our financial statements included in our quarterly reports on Form 10-Q.

Tax Fees. Rothstein Kass billed us \$65,500 and \$65,000, respectively, for review and preparation of U.S. federal, state, and local tax returns during the fiscal years ended December 31, 2013 and December 31, 2012.

Other Fees. There were no other fees charged to us by Rothstein Kass during the fiscal years ended December 31, 2013 and 2012.

The prior approval of the Board of Directors or Audit Committee is required for the engagement of our auditors to perform any non-audit services for us. Other than *de minimis* services incidental to audit services, non-audit services shall generally be limited to tax services such as advice and planning and financial due diligence services. All fees for such non-audit services must be approved by the Board of Directors or Audit Committee, except to the extent otherwise permitted by applicable SEC regulations.

2. Dividends.

(a) Subject to the prior preferences and other rights of any Senior Stock, but before payment of any dividends or other distributions to holders of Junior Stock (excluding dividends or other distributions to holders of Junior Stock payable exclusively in Junior Stock or rights to purchase Junior Stock), the holders of Series A Preferred Stock shall be entitled to receive, on a pari passu basis, a cumulative cash dividend in an amount equal to three percent (3%) of the Subscription Price per share, which shall be deemed accrued on June 30, and December 31 of each year regardless of whether declared by the Board of Directors. The dividend shall be paid, from funds legally available for such purpose, in two semi-annual installments on January 31 and July 31 of each year, or if such day is not a Business Day, on the next Business Day. Each such dividend shall be paid to the holders of record of the Series A Preferred Stock as their names appear on the share register of the Corporation on June 30, and December 31 of each year, as applicable, or, if a different date is designated by the Board of Directors with respect to the dividend payable, on the last Business Day immediately before the date on which the dividend is required to be paid.

(b) Any dividends or distributions declared and paid or distributed with respect to Junior Stock (other than dividends or distributions in shares of Junior Stock resulting in an adjustment to the Conversion Price under Section 4(g)) shall likewise be declared and paid or distributed to holders of Series A Preferred Stock such that all holders of Junior Stock and Series A Preferred Stock shall receive such dividends or distributions in proportion to the number of shares of Junior Stock that would be held by each such holder if all shares of Series A Preferred Stock were converted to Common Stock (or such other series of Junior Stock, if applicable) at the Conversion Price in effect as of the record date for the determination of holders of Common Stock entitled to receive such dividend or distribution (or such other series of Junior Stock, if applicable); provided that the Board of Directors shall set the same record date for the determination of holders of Series A Preferred Stock, Parity Stock, and Junior Stock entitled to receive such dividend or distribution.

3. Distributions Upon Liquidation, Dissolution or Winding Up.

(a) In the event of any voluntary or involuntary liquidation, dissolution or other winding up of the affairs of the Corporation, subject to the preferences and other rights of any Senior Stock, the holders of Series A Preferred Stock shall be entitled to be paid any dividends accrued pursuant to Section 2(a) but remaining unpaid. Such dividends shall be paid in cash. If the cash of the Corporation legally available for such distribution among the holders of the Series A Preferred Stock and any Parity Stock shall be insufficient to permit the payment to such holders of the full aforesaid preferential amount, then the entire amount legally available for distribution shall be distributed ratably among the holders of the Series A Preferred Stock and any Parity Stock in proportion to the full preferential amount that each such holder is otherwise entitled to receive under Section 2(a).

(b) Subject to the preferences and other rights of any Senior Stock, upon completion of the distribution required by subsection (a) of this Section 3, all of the remaining assets of the Corporation available for distribution to stockholders shall be distributed among the holders of Series A Preferred Stock, Parity Stock, and Common Stock in proportion to the number of shares of Common Stock that would be held by each such holder if all shares of Series A Preferred Stock and Parity Stock were converted into Common Stock at the applicable Conversion Price of Series A Preferred Stock and Parity Stock in effect as of the record date for the determination of holders of Common Stock entitled to receive such distribution; provided that the Board of Directors shall set the same record date for the determination of holders of Series A Preferred Stock, Parity Stock, and Common Stock entitled to receive such distribution.

(c) The (i) acquisition of the Corporation by another entity by means of any transaction or series of transactions (including, without limitation, any reorganization, merger or consolidation) in which the shareholders of the Corporation do not own a majority of the outstanding shares of the surviving or acquiring corporation upon completion of such transaction or series of transactions or (ii) a sale of all or substantially all of the assets of the Corporation shall be deemed a liquidation under this Section.

(d) The Corporation shall give each holder of record of Series A Preferred Stock written notice of an impending transaction deemed to be a liquidation under this Section not later than twenty (20) days prior to the shareholders' meeting called to approve such transaction, or twenty (20) days prior to the closing of such transaction, whichever is earlier, and shall also notify such holders in writing of the final approval of such transaction. The first of such notices shall describe the material terms and conditions of the impending transaction, and the Corporation shall thereafter give such holders prompt notice of any material changes. The transaction shall in no event take place sooner than twenty (20) days after the Corporation has given the first notice provided for herein or sooner than ten (10) days after the Corporation has given notice of any material changes provided for herein; provided, however, that such periods may be shortened upon the written consent of the holders of Series A Preferred Stock that represent at least a majority of the then outstanding shares of Series A Preferred Stock.

(e) If the Corporation shall propose to take any action of the types described in Section 3(a) that will involve the distribution of assets other than cash, the notice described in subparagraph (d) above shall set forth a determination of the value (which may be an estimated value) of the assets to be distributed to the holders of shares of the Series A Preferred Stock, as determined in good faith by the Board of Directors of the Corporation.

4. Conversion Rights. The Series A Preferred Stock shall be convertible into Common Stock as follows:

(a) Conversion by Holder.

(i) Optional Conversion. Subject to and upon compliance with the provisions of this Section 4, and provided that an exemption from registration under the Securities Act of 1933, as amended, and an exemption from registration or qualification under applicable state securities or "blue sky" laws is then available, as determined in good faith by the Board of Directors, the Series A Preferred Stock shall be convertible at the election of the holder thereof, at any time and from time to time, into a number of fully paid and nonassessable shares of Common Stock determined in accordance with subparagraph (d) of this Section 4.

(b) Automatic Conversion. Each outstanding share of Series A Preferred Stock shall automatically be converted, without any further act of the Corporation or its shareholders, into fully paid and nonassessable Common Stock at the Conversion Price then in effect upon the earlier of:

(i) Automatic Conversion Date. March 4, 2019; or,

(ii) Vote. The holders of at least a majority of the outstanding shares of the Series A Preferred Stock, voting as a class, approve or consent to such conversion.

(c) Valid Issuance. All Common Stock which may be issued upon conversion of the Series A Preferred Stock will upon issuance by the Corporation be duly and validly issued, fully paid and nonassessable and free from all taxes, liens and charges with respect to the issuance thereof, and the Corporation shall take no action which will cause a contrary result.

(d) Number of Shares Issuable Upon Conversion. Each share of Series A Preferred Stock shall be converted into the number of shares of Common Stock determined by dividing (x) a number equal to the number of dollars and cents comprising the Subscription Price, by (y) a number equal to the number of dollars and cents comprising the Conversion Price in effect on the Conversion Date.

(i) Accrued But Unpaid Dividends. Upon the conversion of any Series A Preferred Stock, any accrued but unpaid dividends with respect to each such share shall be paid by the Corporation in cash, but any other dividends shall not be payable from and after the date of such conversion. A dividend shall be deemed accrued on June 30, and December 31 of each year for this purpose regardless of whether declared by the Board of Directors.

(e) Mechanics of Conversion. The holder of any Series A Preferred Stock may exercise the conversion right specified in paragraph (a) of this Section 4 by surrendering to the Secretary of the Corporation or any transfer agent of the Corporation the certificate or certificates for the shares to be converted, if such shares are certificated, accompanied by written notice specifying the number of shares to be converted. Upon the occurrence of the event specified in paragraph (b) of this Section 4, the outstanding Series A Preferred Stock shall be converted automatically without any further action by the holders of such shares and whether or not the certificates representing such shares are surrendered to the Corporation or its transfer agent. Conversion shall be deemed to have been effected on the date when delivery of notice of an election to convert and certificates for shares is made in the case of conversion under paragraph (a) of this Section 4, or on the date of the event specified in paragraph (b) of this Section 4, and such date is referred to herein as the "Conversion Date." Subject to the provisions of subparagraph (g)(ii) of this Section 4, as promptly as practicable thereafter (and after surrender of the certificate or certificates evidencing Series A Preferred Stock to the Corporation or any transfer agent of the Corporation, if applicable) the Corporation shall issue and deliver to or upon the written order of such holder a certificate or certificates for the number of shares of Common Stock to which such holder is entitled and a check or cash with respect to any fractional interest in any share of Common Stock as provided in paragraph (f) of this Section 4. Subject to the provisions of subparagraph (g)(ii) of this Section 4, the person in whose name the certificate or certificates for Common Stock are to be issued shall be deemed to have become a holder of record of such Common Stock on the applicable Conversion Date. Upon conversion of only a portion of the number of shares covered by a certificate representing Series A Preferred Stock surrendered for conversion (in the case of conversion pursuant to paragraph (a) of this Section 4), as applicable, the Corporation shall issue and deliver to or upon the written order of the holder of the certificate so surrendered for conversion, at the expense of the Corporation, a new certificate covering the number of shares of Series A Preferred Stock representing the unconverted portion of the certificate so surrendered, if such shares are to be held in certificated form. Notwithstanding the foregoing, the Corporation shall not be obligated to issue to any holder of Series A Preferred Stock certificates evidencing the Common Stock issuable upon such conversion unless certificates evidencing the Series A Preferred Stock are delivered to either the Corporation or any transfer agent of the Corporation if such shares of Series A Preferred Stock are held in certificated form.

(f) Fractional Shares. No fractional share of Common Stock or scrip shall be issued upon conversion of Series A Preferred Stock. If more than one share of Series A Preferred Stock shall be surrendered for conversion at any one time by the same holder, the number of shares of Common Stock issuable upon conversion thereof shall be computed on the basis of the aggregate number of shares of Series A Preferred Stock so surrendered. Instead of any fractional share of Common Stock which would otherwise be issuable upon conversion of any Series A Preferred Stock, the Corporation shall pay a cash adjustment in respect of such fractional interest in an amount equal to that fractional interest at the then Fair Value.

(g) Conversion Price Adjustments. If the Corporation shall (A) declare a dividend or make a distribution on its Common Stock in shares of Common Stock, (B) subdivide or reclassify the outstanding Common Stock into a greater number of shares, or (C) combine or reclassify the outstanding Common Stock into a smaller number of shares, the Conversion Price in effect at the time of the record date for such dividend or distribution or the effective date of such subdivision, combination or reclassification shall be proportionately adjusted so that the holder of any Series A Preferred Stock surrendered for conversion after such date shall be entitled to receive the number of shares of Common Stock which he would have owned or been entitled to receive had such Series A Preferred Stock been converted immediately prior to such date. Successive adjustments in the Conversion Price shall be made whenever any event specified above shall occur.

(i) Rounding of Calculations; Minimum Adjustment. All calculations under this Section 4(g) shall be made to the nearest cent or to the nearest one hundredth (1/100th) of a share, as the case may be. Any provision of this Section 4 to the contrary notwithstanding, no adjustment in the Conversion Price shall be made if the amount of such adjustment would be less than one percent (1%) of the Conversion Price, but any such amount shall be carried forward and an adjustment with respect thereto shall be made at the time of and together with any subsequent adjustment which, together with such amount and any other amount or amounts so carried forward, shall aggregate one percent (1%) of the Conversion Price or more. Notwithstanding the foregoing, the Board of Directors may elect at any time to make an adjustment otherwise required under this Section 4(g) of less than one percent (1%).

(ii) Timing of Issuance of Additional Common Stock Upon Certain Adjustments. In any case in which the provisions of this Section 4(g) require that an adjustment shall become effective immediately after a record date for an event, the Corporation may defer until the occurrence of such event (A) issuing to the holder of any Series A Preferred Stock converted after such record date and before the occurrence of such event the additional Common Stock issuable upon such conversion by reason of the adjustment required by such event over and above the Common Stock issuable upon such conversion before giving effect to such adjustment, and (B) paying to such holder any amount of cash in lieu of a fractional Common Share pursuant to paragraph (h) of this Section 4; provided that the Corporation upon request shall deliver to such holder a due bill or other appropriate instrument evidencing such holder's right to receive such additional shares, and such cash, upon the occurrence of the event requiring such adjustment.

(h) Fair Value. The "Fair Value" per share of Common Stock for any date shall be determined by the Board of Directors as follows:

(i) If the Common Stock is listed on a national securities exchange, the Fair Value shall be the average of the last reported sale price of the Common Stock on such exchange, for the last twenty consecutive trading days prior to such date; or

(ii) If the Common Stock is not listed on a national securities exchange but prices for the Common Stock are reported on the Nasdaq OTC Bulletin Board, the Fair Value shall be the average of the daily high and low sales prices reported on Nasdaq OTC Bulletin Board during the last twenty consecutive trading days prior to such date; or

(iii) If the prices for the Common Stock cannot be determined under Section 4(h)(i) or Section 4(h)(ii), the Fair Value shall be an amount determined in such reasonable manner as may be prescribed by the Board of Directors in good faith, irrespective of any accounting treatment.

(i) Statement Regarding Adjustments. Whenever the Conversion Price shall be adjusted as provided in paragraph (g) of this Section 4, the Corporation shall forthwith file, at the principal office of the Corporation, a statement showing in detail the facts requiring such adjustment and the Conversion Price that shall be in effect after such adjustment, and the Corporation shall also cause a copy of such statement to be sent by mail, first class postage prepaid, to each holder of Series A Preferred Stock at the address of such holder appearing on the Corporation's records. Where appropriate, such copy may be given in advance and may be included as part of a notice required to be mailed under the provisions of paragraph (j) of this Section 4.

(j) Notice to Holders. In the event the Corporation take any action resulting in an adjustment of the Conversion Price as provided in Section 4(g), the Corporation shall give notice to each holder of Series A Preferred Stock, in the manner set forth in paragraph (i) of this Section 4, which notice shall specify the adjustment of the Conversion Price and the effective date of such adjustment. Failure to give such notice, or any defect therein, shall not affect the legality or validity of any such action.

(k) Costs. The Corporation shall pay all documentary, stamp, transfer or other transaction taxes, if any, attributable to the issuance or delivery of Common Stock upon conversion of, any Series A Preferred Stock; provided that the Corporation shall not be required to pay any taxes which may be payable in respect of any transfer involved in the issuance or delivery of any certificate for such shares in a name other than that of the holder of the Preferred Stock in respect of which such shares are being issued.

(l) Reservation of Shares. So long as any Series A Preferred Stock remain outstanding, the Corporation shall reserve at all times free from preemptive rights, out of its authorized but unissued Common Stock, solely for the purpose of effecting the conversion of the Series A Preferred Stock, sufficient Common Stock to provide for the conversion of all outstanding Series A Preferred Stock; and if at any time the number of authorized but unissued shares of Common Stock shall not be sufficient to effect the conversion of all then outstanding shares of Series A Preferred Stock, the Corporation will take such corporate action as may, in the opinion of counsel, be necessary to increase its authorized but unissued shares of Common Stock to such number of shares as shall be sufficient for such purposes, including, without limitation, engaging in best efforts to obtain the requisite shareholder approval of any necessary amendment to, as applicable, this Certificate of Determination or the Corporation's Articles of Incorporation, as may be amended in the future.

5. Voting Rights.

(a) In addition to the special voting rights provided in paragraph (b) of this Section 5 below and by applicable law, the holders of Series A Preferred Stock shall be entitled to vote upon all matters upon which holders of the Common Stock have the right to vote, or, if no Common Stock is issued and outstanding, all matters upon which holders of Common Stock would have the right to vote as a matter of law. The holders of Series A Preferred Stock shall also be entitled, notwithstanding any provision hereof, to notice of any shareholders' meeting in accordance with the Bylaws of the Corporation. The holders of Series A Preferred Stock shall be entitled to cast the number of votes equal to the largest number of whole shares of Common Stock into which such Series A Preferred Stock could be converted pursuant to the provisions of Section 4 hereof at the record date for the determination of the shareholders entitled to vote on such matters, or, if no such record date is established, at the date such vote is taken or any written consent of shareholders is solicited. Such votes shall be counted together with votes of Common Stock and all other shares of capital stock having general voting powers, and shall not be counted separately as a class. In all cases where the holders of Series A Preferred Stock have the right (separately or together with holders of any other series of Preferred Stock of the Corporation) to vote separately as a class or as a series, such holders shall be entitled to one vote for each such share held by them respectively. Fractional votes shall not, however, be permitted and any fractional voting rights available on an as-converted basis (after aggregating all shares into which shares of Series A Preferred Stock held by each holder could be converted) shall be rounded to the nearest whole number (with one-half being rounded upward).

(b) The following matters shall require the approval of the holders of a majority of the Series A Preferred Stock then outstanding, voting as a separate class: (i) creation of any Preferred Stock ranking as Senior Stock to the Series A Preferred Stock with respect to the payment of dividends, liquidation preferences or voting rights; (ii) repurchase of any shares of Junior Stock except shares issued pursuant to or in connection with a compensation or incentive plan or agreement approved by the Board of Directors for any officers, directors, employees or consultants of the Corporation; (iii) any sale, conveyance, or other disposition of all or substantially all the Corporation's property or business, or any liquidation or dissolution of the Corporation, or a merger into or consolidation with any other corporation (other than a wholly-owned Subsidiary corporation), or any one or series of related transactions in which more than 50% of the voting power of the Corporation is disposed of, unless upon consummation of such transaction the holders of Series A Preferred Stock would receive a distribution on account of each share of Series A Preferred Stock an amount of cash or other property or both having a value (determined in accordance with Section 3(e)) at least equal to the value of any cash, property, or both to which holders of Common Stock would be entitled to receive, plus the amount of any accrued but unpaid dividends pursuant to Section 2(a); (iv) any adverse change in the rights, preferences and privileges of the Series A Preferred Stock; or (v) any amendment of the Corporation's Articles of Incorporation, including this Resolution, or Bylaws that results in any adverse change in the rights, preferences or privileges of the Series A Preferred Stock; provided, that nothing in this paragraph shall restrict or limit the rights and powers of the Board of Directors to fix by resolution the rights, preferences, and privileges of, and restrictions and limitations on, stock ranking as Parity Stock or Junior Stock to Series A Preferred Stock.

6. Exclusion of Other Rights. Except as may otherwise be required by law, the Series A Preferred Stock shall not have any rights, preferences, privileges or restrictions other than those specifically set forth in this resolution and in the Corporation's Articles of Incorporation.

7. Headings of Subdivisions. The headings of the various subdivisions hereof are for convenience of reference only and shall not affect the interpretation of any of the provisions hereof.

8. Severability of Provisions. If any right, preference or limitation of the Series A Preferred Stock set forth in this resolution (as such resolution may be amended from time to time) is invalid, unlawful or incapable of being enforced by reason of any rule of law or public policy, all other rights, preferences and limitations set forth in this resolution (as so amended) which can be given effect without the invalid, unlawful or unenforceable right, preference or limitation shall, nevertheless, remain in full force and effect, and no right, preference or limitation herein set forth shall be deemed dependent upon any other such right, preference or limitation unless so expressed herein.

9. Status of Reacquired Shares. Shares of Series A Preferred Stock which have been issued and reacquired in any manner or which shall have been converted into Common Stock shall (upon compliance with any applicable provisions of the laws of the State of California) have the status of authorized and unissued Preferred Stock of the Corporation undesignated as to series and may be redesignated as to series and reissued.

10. Repurchases. With respect to the holders of Series A Preferred Stock, any repurchase by the Corporation of its outstanding Common Stock upon exercise of a repurchase option contained in an agreement between the Corporation and one or more of its employees, consultants, officers, directors, employee stock ownership plan trustees, or other persons having a business relationship with the Corporation shall be permissible, and each holder of Series A Preferred Stock consents to any such repurchases, regardless of any restrictions on such repurchase under Section 502, 503 or 506 of the California Corporations Code.

RESOLVED FURTHER, that the Chief Executive Officer, President, or any Vice President, and the Secretary or any Assistant Secretary of this Corporation be, and they hereby are, authorized and directed to execute, acknowledge, file and record a certificate of determination of preference in accordance with the foregoing resolution and the provisions of California law."

III. The number of shares of Series A Preferred Stock is 300,000. As of the date of this Certificate of Determination, no shares of Series A Preferred Stock have been issued.

We declare under penalty of perjury under the laws of the State of California that the matters set forth in this Certificate are true and correct of our own knowledge.
